防虫阀

FEST VALVE

革命性突破！从此杜绝蚊子滋生、蟑螂、蜈蚣和其它害虫的肆虐与侵入，并消除难闻臭味！

如何安装？

只须按图所示，把它安放在地面的排水洞上，调整其位置直到它安稳即可。

耐用期
至少5年

何必与这些不速之客分享您的美丽家园呢？

情况 1:

洗碗盆、浴缸的横水管突出部位遮盖了开口处。

无需改装的选择

没有问题！无需切除水管的突出部位或将排水洞移位，只需把“防虫阀”轻易安上便可。

情况 2:

排水洞与水管的位置不相吻合。

什么是“防虫阀”？

“防虫阀”是一种既轻盈却坚实的器具，能轻易地将它安装在排水洞上，以防止害虫的肆虐或滋生。它能防止蚊子、蟑螂、蜈蚣通过阴沟暗道侵入您的安居乐园。此项独特的设计和所具有的神奇功能，也同时确保废水不会积滞，而对环境健康造成威胁。“防虫阀”拥有一个随时都会关闭的活门；一旦有水流入，活门便会自动打开让水流出。当水流停止时，活门便会恢复到封闭的状态。因此，有了这个独特设计和多功能用途的“防虫阀”，恼人的蚊子飞虫等将从此销声灭迹。

它如何操作呢？

• 把它放在排水洞内。

• 一旦水流入，活门便会自动打开，让水流出。

• 水流停止，活门会随时关闭，阻止蚊子滋生、蟑螂、蜈蚣和其它害虫的肆虐与入侵。

It's Simple! Just place your "PEST-VALVE" into the Floor Trap Grating and rotate until it fits nicely as shown in the diagram.

LIFESPAN OF AT LEAST 5 YEARS ...

DON'T SHARE YOUR HOME WITH THEM!

CASE 1

Waste pipe from basin, longbath protruding blocking the opening.

PROBLEM FREE INSTALLATION

NO PROBLEM! No more cutting of waste pipes or realigning of floor trap gratings. Simply just get your "PEST-VALVE" and install it.

CASE 2

Floor trap grating opening not centralise blocking the opening.

What is "PEST VALVE"?

"PEST VALVE" is a light-weight and compact device conveniently fitted onto the floor or gully trap to prevent odours and insects nuisance or breeding. It helps to block the path for mosquitoes, cockroaches, centipedes from passing through the drain pipes into your vicinity. The unique design and wonder function of this device also ensure the water will not be accumulated to cause environmental harm. Pest Valve consists of a flap which is normally closed at the discharge opening. When water enters, the flap is pivoted to discharge the water from the device. When water stops flowing in and the volume of water within it diminishes, the flap will pivot back to its rest position, sealing up the discharge opening. Thus, the spread of unpleasant odours and insects disturbances will be shut down completely with this specially designed and functioning of "Pest Valve". The gaps on top of the flap will allow water to slip through so that the problem of insects breeding will be eliminated.

HOW IT WORKS?

Place it in floor trap gratings.

Valve open as water pressure flows allowing water to flow through

Prevent mosquitoes breeding, foul smell cockroaches, centipedes and other insects from passing through.
